The trial of the damage suit of the North Point Consolidated Irrigation company against the Ulah & Salt Lake Camal company, the North Jordan Irrigation company, the South Jordan Canal contesny, the city of Salt Lake, was is an analysis of the company of Salt Lake, was begun yesterday before Judge Hilles without a fair. In the complaint it is all leged that since November, 1895, continuously to June 21, 1895, the defondants discharged tinte the irrigation system of the plaintiff, foul and impure seepage and diradings water, through the drain difth by them constructed. and the evanty of Sait Lake, was beguit yesterday before Judge Hiles without a fars. In the complaint it is alleged that since November, 1955, conthmously to June 21, 1885, the defendants discharged into the irrigation system of the plaintiff, foul and impure
seepage and drainage water, through
the drain ditch by them constructed
and maintained from Decker's lake to
White lake, by reason of which the
plaintiff was whilly deprived of the use
of its property and firstation system
from November, 1835, to June, 1835, and
atterwords during the whole irrigation
season of 1835, to the plaintiff's damage in the sum of \$30,000, for which
judgment is project.

Measrs L. W. Taylor, John M. Zane,
L. R. Rogers and C. F. Lostbourow represented the plaintiff, and Messrs, F.
S. Rehards, C. S. Varian, W. C. Hall,
G. F. Punnam and Ray Van Cott for
the various defendants.

The original soil was theid in 1825 by
the plaintiff, praying for an injunction
to prevent the defendants from discharging the alkali and befouled water into the plaintiff's irrigation system, and for \$6,000 damages. This suit
was irred before Judge Norrell, who denied the prayer for an injunction and
dismissed the ulshiff's complaint.

On appeal to the supreme court, the
fundament of the trial court was re-

dismissed the pishtill's complaint.
On appeal to the supreme court, the
judgment of the fruit court was reversel, the injunction was granted and
the paintiff permitted to sue and estailish the amount of its damages.
The result was the present suit, the
hearing of which will probably occupy
several days.

"Two grades of roust beef, one grade of corned beef."

"You sold considerably of this lower grade to the grogerument, did you not?"

"A very small amount. We sold about two million and a half pounds of canned roust beef to the government in all."

Colonel Gillespie: "Where was that second-grade delivered?"
"I think it was delivered at Camp Alger

## INSPECTOR TESTIFIES.

INSPECTOR TESTIFIES.

Dr. George Lyttle, an assistant inspector of the bureau of animal industry, who had been on duty at various packing-houses in the stockyards, testified that about one in 500 cattle was condemned. If the animal is to be entirely condemned, the impactor follows it to the rendering tank and sees it put, in. He made no inspection of the tank himself, nor did he inspect the refuse when it came out. In the case of bruises, the bruised portlons are cut off and condemned. Meat withdrawn from the tank would not be suitable for food.

Dr. O. E. Dyson, who has been an Dr. O. E. Dyson, who has been an inspector at the stockyards since 1853, was next called. He said his duties were to look after the other inspectors and see that they do their duty. He had twenty-five or thirty men to look after, and had reported only two in a year for negligence. One came late and the other was intoxicated. "An interval," he said, "might elapse between the going off and the coming on an inspector, but we are supposed to be very strict in regard to that." Dr. Dyson said that cattle condemned at the ante-mortem examination in the

In reply to General Gillespie, the witness stated that Powell was a meat dealer, he understood, in New York City. He had no connection whatever with Armour & Co. He visited the New York office and said that he had a process for preserving refrigerated beef for a period without ice. It was quite a proposition to handle beef in the warm country, and the New York office sent Mr. Powell to Florida to experiment. The experiment was not satisfactory to the government and that was the end of it.

ITALIAN MURDERER CAPTURED.

Spokane Offender Led the Officers Lively Chase.

Spokane, Wash, March 12.—Deputy Sheriff Cole and Policeman Herndon arrived today with William Aibi, the Italian who killed James Halley, alias Lacey, in a gambling hall here two weeks ago. Albi was captured in an Italian cabin, near Pricest River, Ida. He resisted arrest with a Winchester rifle, but was finally persuaded by his countrymen to yield. After committing the crime, Albi ran from the crowded hall to the street, dashed across the Monroe street bridge, and walked to an Italian settlement east of this city. There he was found by a deputy sheriff, but he got the drop on the officer and excaped to the hills. He has since been leading the officers a lively chase. At one time he doubled on his tracks and slipped into Spokane. Here he was harbored by the Italian colony and aided to escape into Idaho, Halley, his victim, was the son of a prominent family of Toronto, Canada. Spokane, Wash., March 13.-Deputy

A head lumber surveyor for a mill in East Hampden, Me., gives the following account of a very curious difficulty: "For the past six or seven years I have been troubled with constipation, and as regularly as each Sunday came round I would have a terrible headache; so bad in fact, that I would scarcely go out of the house at all for the day. My work is such that I am standing in one spot otherwise jumber nearly all day long, and so get no exercise to speak of. I used all kinds of headache cures that I could find, but they would soon give no effect. One Saturday one of the firm gave me a bottle of Ripans Tabules and I used them that night. The next morning I was more than surprised to find no headache. I have used them regularly since, and have no headaches, am no longer countipated, and my general health is all that could be desired. I couldn't keep house without Ripans Tabules. A friend of this man adds: "He desires that his name be not used in an advertisement, but would be glad to answer any inquiries. I can personally vouch for the truth of his story, as I was the now who called his attention to the Tabules."
